CHIEF SHIP SURVEYOR'S DEPARTMENT  
ROOM NO. 5

1902-3

VOL. II.

SAILING-VESSELS

## The Characters used for Classification are:—

100A1 95A1 } Vessels built of Iron or Steel  
90A1 85A1 } according to the Rules in force  
80A1 75A1 } since 1869.

A1 Iron or Steel vessels built for a special purpose.

\* $\Delta$  Iron vessels built with thicker plating than required for  $\Delta$

$\Delta$   $\Delta$   $\Delta$  Iron Vessels built according to Rules in force between 1864 & 1871.

A1 A1  $\Delta$  Wood or Composite Vessels.

The figure 1 affixed to a character signifies that the vessel is well and sufficiently equipped; a line after the character (thus, A—) that the equipment is deficient from that required by the Rules.

The words "with freeboard" under the character signify that the freeboard assigned is a condition of the vessel's class.

## Classification of the late Underwriters' Registry.

A1\* A1\* Iron or Steel Vessels built in excess of Rules of Underwriters' Registry, and of extra quality of Iron.

A1\* A1\* A1 A1 A A Characters of Iron, Steel, or Composite Vessels built according to the Rules of Underwriters' Registry.

Vessels classed in Red have been built under inspection of Surveyors to Underwriters' Registry.

The Classification Columns, when left blank, indicate Vessels never Classed by the Society.

In Col. 8 (Sailing Vessels), Col. 7 (Steamers), three dots ... indicate that the Vessel had a Class at one time, but it has been withdrawn at Owner's request.

In the same Column Lv signifies the classification of the Underwriters' Registry, and the letters a, b, c, &c., indicate the letters and equipment numbers in Table No. 22 (Rules).

A black line with date under it in Classification Column (thus, 3,01) indicates that vessel's character was expunged from Register Book at date specified because, from reported defects, the vessel was not entitled to retain her classification; a red line with date (thus, 3,01) indicates withdrawal of class because of non-compliance with Society's Rules.

A date in Classification Column, without character, indicates that the Class has expired, or been withdrawn from absence of Survey, or non-payment of fees.

When a posting of loss, casualty, &c., is made against a classed vessel the character is expunged thus:—~~100A1~~

+ in the Classification Column signifies that the vessel was built under Special Survey.

LMC —Boilers and Machinery certified by the Engineer Surveyors to Lloyd's Register.

B&MS —Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer Surveyors to Lloyd's Register.

DBS —Donkey Boiler Surveyed and reported to be satisfactory by the Engineer Surveyors to Lloyd's Register.

+ Special Survey of Machinery or Boilers during construction.

RMC —Refrigerating Machinery Certificate denoting that the Refrigerating machinery, insulation, and spare gear are fitted in accordance with the Rules, and were found in good condition at the time mentioned.

+RMC —The + signifies the Special Survey of the Refrigerating appliances during construction, by the Surveyors to Lloyd's Register.

A&CP —Anchors and Chains Proved at a Machine recognised by Lloyd's Register.

Lloyd's A&CP —Anchors and Chains Proved at a Public Machine under the superintendence of Lloyd's Register.

SS & ss.—Special Survey. Rest.—Restored.

Cont.—Continued. HT.—Half-Time Survey.

The date of Survey only certifies to the vessel's state of efficiency at that time.

BRITISH AND FOREIGN SHIPPING.

# REGISTER BOOKS AND PUBLICATIONS

ISSUED BY

## THE COMMITTEE OF LLOYD'S REGISTER.

**LLOYD'S REGISTER OF SHIPPING**, issued annually on the 1st of July. This Book contains the Names, CLASSES, and detailed information concerning the Vessels classed by Lloyd's Register and the late Underwriters' Registry for Iron Vessels; and in addition, as far as possible, particulars of ALL SEA-GOING VESSELS in the world, and of all iron and steel vessels trading on the North American Lakes, of 100 tons and upwards.

In the Appendix will be found a list of Owners of Ships recorded in the Register Book; details of Dry and Wet Docks, Floating Docks, Pontoons, Patent Slipways, Tidal Harbours, Quays, &c., in all parts of the World; a list of Telegraphic Addresses of all firms, &c., connected with Shipping (with the Telegraphic Codes severally employed), so far as ascertained; a list of Steamers arranged according to their gross tonnages; detailed Statistics respecting Merchant Shipping; lists of Shipbuilders, with names of existing Vessels built by each; list of fast Merchant Steamers, &c., &c.

A list is also printed in the Appendix of the Members and Subscribers of Lloyd's, and of the Agents to Lloyd's.

**TERMS OF SUBSCRIPTION**:—The subscription for Marine Insurance Companies, Public Companies or Public Establishments, is £6 6s. per annum, for a single copy of the Register Book, and £3 3s. per annum for every additional copy supplied, unless the copies be periodically posted with type with additions and corrections throughout the year, in which case the subscription for each copy supplied will be £10 10s. per annum.

In the case of other Subscribers the subscription is £3 3s. per annum for each copy, unless periodically posted with type with additions and corrections throughout the year, in which case the subscription will be £5 5s. per annum for each copy supplied.

For the convenience of Subscribers not resident in London, or not having their Books posted, a Supplement, containing the additions to, and corrections in, the Register Book, is issued fortnightly, and forwarded gratis to Subscribers.

The Rules for the Construction and Classification of Steel Vessels are supplied with the above work.

### RULES FOR THE CONSTRUCTION AND CLASSIFICATION OF VESSELS.

# LLOYD'S REGISTER OF BRITISH AND FOREIGN SHIPPING.

ESTABLISHED 1834.

UNITED WITH THE  
UNDERWRITERS' REGISTRY FOR IRON VESSELS IN 1885.

*From 1st July, 1902, to the 30th June, 1903.*

The REGISTER,—which is printed solely for the information of Merchants, Shipowners, Underwriters, and others, being Subscribers or Members,—contains the names, classes, and other useful particulars relating to vessels classed by the Society, and those classed by the Underwriters' Registry for Iron Vessels. It also includes, as far as possible, the names, dimensions, &c. of all other Merchant Vessels of the World, of 100 tons and upwards, some of which, although not classed by the Society are classed elsewhere.

The conditions regulating the classification of vessels in the REGISTER are contained in the Society's Rules.

KEY TO THE REGISTER.

1902-03.

# EXPLANATIONS OF RECORDS IN THE REGISTER BOOK.

(All abbreviations employed in the Register Book are explained in the alphabetical key, see page xxvii.)

## Steamers, columns 2 & 3; Sailing Vessels, columns 3 & 4.

- Master.** The figures which follow the master's name, thus, *Smith* 86-97, indicate the dates of his appointment (1) as master in the service of the present owner of the vessel, and (2) as master of the vessel herself.
- Decks.** See illustrations of types of vessels, following page xl of key. Explanations of such terms as *Shade dk.*, &c., are included in the alphabetical key, see page xxviii.
- 3 dk rule** ..... This notation indicates that the vessel has been built according to the Rules for three-decked vessels.
- Special Surveys.** Explanations of records of special periodical surveys will be found in the alphabetical key, see page xxviii. The records only certify to the vessel's state of efficiency *at the time of survey*.
- Ports of Survey.** The contractions (such as *Lon.*, *Syd.*, &c.), used to denote the ports at which vessels have been surveyed, are explained at page xxxii.
- Rig, &c.** Explanations of contractions used to denote the rigs of vessels will be found in the alphabetical key, see page xxviii.
- †** ..... This sign following the word "*salted*" indicates that the vessel's beams have not been salted.

## Steamers, column 4; Sailing Vessel, column 5.

- Tonnage.** The tonnage recorded in the Register Book in type like that shown at the side hereof, is, with a few exceptions, the official registered tonnage measured according to the law of the country to which the vessel belongs.
- |  |                  |
|--|------------------|
|  | 3101 (Gross)     |
|  | 2864 (Under dk.) |
|  | 1994 (Net)       |
- For some foreign vessels, the tonnage which is recorded has been measured in accordance with British rules and is accepted under British law. In such cases, the fact is indicated by the use of italic figures, thus :—
- |  |                  |
|--|------------------|
|  | 3101 (Gross)     |
|  | 2864 (Under dk.) |
|  | 1994 (Net)       |

## Steamers, columns 5, 6 & 7; Sailing Vessels, columns 6, 7 & 8.

### Symbols of Classification of Lloyd's Register.

- 100A1 95A1** { Characters of vessels built of Iron or Steel according to the Rules of the Society since 1869. The numerals 100, 90, &c., do not signify terms of years, but are intended for the purpose of comparison only.
- 90A1 85A1** {
- 80A1 75A1** {
- A1** ..... This character (without a numeral prefixed) is assigned to Iron or Steel vessels built for special purposes or trades, to the satisfaction of the Committee.
- \*A1** ..... Character of Iron vessels built with thicker plating than required for A1.
- A1A1A1** ..... Characters of Iron vessels built according to the Rules of the Society in force between the years 1864 and 1871.
- A1** ..... Character of Wood or Composite vessels of the first class well and sufficiently equipped. The figures in column 5 (Steamers), column 6 (Sailing Vessels), prefixed to the character indicate the term of years for which the vessel is at present classed, thus :—11A1, Cont 6A1, Rest 6A1. (See notes in alphabetical key, page xxviii, under "Cont" and "Rest"). The figures in column 7 (Steamers), column 8 (Sailing Vessels) indicate the expired terms of years originally assigned, if on the first line, and assigned on continuation if on lower lines.

- A1** ..... Character of vessels which have passed the period on original Survey, or Continuation, or Restoration, of vessels not having an original character, which are to be fit to carry dry and perishable goods. The years for which this character is assigned appear under the class in column 5 (Steamers), column 6 (Sailing Vessels), thus :—SSPly.00-6yrs.
- A1** ..... Character of vessels fit for conveyance of dry and perishable goods on short voyages. The term of years for which character A1 is assigned appears under the class in column 6 (Sailing Ships), thus :—SSPly.00-4yrs.
- 1** ..... The figure 1 included with the characters, as printed in the Register, signifies that the vessel is well and efficiently equipped as per Table 22 (see the Society's Rules).
- ..... This sign placed after a character, in the position occupied by the figure 1, indicates that the equipment of the vessel—either as regards its quality or its quantity—does not fulfil the requirements of the Society's Rules.
- +** ..... This sign denotes that the vessel has been built under Special Survey.
- +** ..... This sign denotes that the engines or the boilers, (according to the record which follows) have been surveyed under Special Survey.
- 5,01** ..... A black line, with date underneath, indicates that the vessel's character was expunged from the Register at the date specified because from reported defect the vessel was not entitled to retain her classification.
- 8,01** ..... A red line, with date underneath, indicates that the vessel's character was expunged from the Register Book at the date specified because from non-compliance with the Society's Rules as regards surveys, the vessel was not entitled to retain her classification.
- ...** ..... This sign in column 7 (Steamers), column 8 (Sailing Vessels), indicates that the vessel's class was changed from the Register Book at the Owner's request.
- 100A1** ..... When a posting of loss, condemnation, casualty, or other event, made against a classed vessel, the character is expunged in this manner.

**with freeboard** This notation under the character signifies that the freeboard assigned is a condition of the vessel's class.

**For tug purposes, Trawler, &c.** Such notations under the character indicate the trade or purpose for which the vessel is intended, in view of which she has been classed by the Society.

**Awng dk., Shade dk., &c.** See illustrations of types of vessels, following page xl of key. Explanations of such terms as shade deck, deck, &c., are included in the alphabetical key, see page xxviii.

### Symbols of Classification of the late Underwriters' Registry.

(Amalgamated with Lloyd's Register in 1895.)

- A1\* A1\*** ... Characters of Iron or Steel vessels built in accordance with the Rules of the Underwriters' Registry and of extra class of Iron.
- A1\* A1\*** { Characters of Iron, Steel, or Composite vessels according to the Rules of the Underwriters' Registry.
- A1, A1, A, A, ...** {
- Vessels classed in red were built under the inspection of the Surveyors to the Underwriters' Registry.
- The figure 1 or 2 affixed to Symbols of Classification signifies the Character of Equipment.

**Last date of Survey.** The figures under a character denote the date when the vessel was last surveyed. The *date of survey* only certifies to the vessel's state of efficiency at that time.

**Ports of Survey.** An explanation of contractions used to indicate surveying ports will be found on page xxxii.

The 6th, 7th, and 8th columns (Sailing Vessels), or 5th, 6th, and 7th columns (Steamers) left blank, indicate that the vessel has never been classed in the Register Book.

When the 6th (Sailing Vessels) or 5th (Steamers) column is left blank, except as regards the date of survey last recorded, it indicates that the character has expired, or that it has been withdrawn either for want of survey or on account of non-payment of fees due in the case.

### Steamers, column 8; Sailing Vessels, column 9.

**Date of Build.** In the case of Iron and Steel vessels classed by Lloyd's Register, the last date of survey for first entry of classification is reckoned as the date of build when such survey is completed within six months of the date of launching; but, when the first entry survey is not completed within that period, the date of build is reckoned as six months after the date of launching. In the case of classed Iron and Steel vessels launched prior to the 19th May, 1887, and also in the case of all classed Wood and Composite vessels, the date of launch is reckoned as the date of build. In the case of vessels not classed by Lloyd's Register, it is not possible to define in all cases whether the date of build is the date of launch or the date of completion.

Records such as 18 $\frac{5}{4}$  occur in the case of some unclassified vessels. These denote that the vessel was originally built at the date indicated by the upper figures, and is reported to have been rebuilt at the date indicated by the lower figures. In such cases, the Society has no authoritative information as to the extent to which the reported rebuilding has been carried out (see special note at foot of this page).

Rebuilding of vessels, when carried out under the inspection and to the satisfaction of the Society's Surveyors, is recorded thus:—"rebuilt 89."

### Steamers, column 10; Sailing Vessels, column 12.

**Owners.** In the case of vessels belonging to the United Kingdom, the name recorded in the Register Book is that of the Managing Owner, or of the firm in which the Managing Owner is a partner. When there is not a Managing Owner appointed, the name of the largest shareholder is recorded; and the name of the Manager of the vessel is also noted if desired. For colonial or foreign vessels, it is endeavoured to follow the same practice as for United Kingdom vessels; but obvious difficulties render it impossible to ensure that a person entered as Managing Owner is really a legal owner. He may therefore sometimes be only the *Manager* of a vessel as distinguished from the *Managing Owner*.

### Steamers, column 11; Sailing Vessels, column 13.

**Depth.** When two depths are recorded, thus:  $\frac{16.9}{24.2}$  the upper figures denote the depth to main deck and the lower figures the depth to the upper deck. This practice is most frequently adopted in the cases of vessels which have a spar or awning deck.

**Deck Erections.** See illustrations of types of vessels, following page xl.

**Water Ballast.** See explanations and illustrations on page xxxi of key.

### Steamers, column 12; Sailing Vessels, column 14.

**Water Ballast.** See explanations and illustrations on page xxxi of key.

While the Committee take all means possible to obtain correct information concerning the Vessels entered in the Society's Register Book, it will be understood that in the case of Vessels not classed by the Society they cannot vouch for the complete accuracy of all the particulars given in respect of dates of metalling, tonnage, dimensions, decks, classification, &c.

### Steamers, column 13.

All contractions used in relation to Engines, Boilers, Furnaces, &c., are explained in the alphabetical key, see page xxviii.

**Nominal Horse Power** The formulæ from which the Nominal Horse Powers are calculated are:—

(NHP) 1. In cases of vessels in which the particulars of boiler pressures and surfaces are known:—

$$NHP = \frac{P + 340}{1000} \left( \frac{D^2 \sqrt{s}}{100} + \frac{H}{15} \right) \text{ where the boiler pressure is below 160lb.}$$

$$= \frac{P + 590}{1500} \left( \frac{D^2 \sqrt{s}}{100} + \frac{H}{15} \right) \text{ where the boiler pressure is 160lb or above.}$$

If the boilers are fitted with Forced Draught or Induced Draught appliances, then  $\frac{H}{12}$  is taken instead of  $\frac{H}{15}$ .

2. In cases where particulars of the boiler pressures and heating surfaces are not known:—

$$NHP = \frac{D^2 \sqrt{s}}{100} \text{ for Triple and Quadruple Expansion Engines.}$$

$$= \frac{D^2 \sqrt{s}}{120} \text{ for Compound Engines.}$$

$$= \frac{D^2 \sqrt{s}}{130} \text{ for Simple Engines.}$$

In the above Rules,  $D$  = diameter of L.P. Cylinder in inches.

$s$  = Stroke in inches.

$H$  = Heating surface in square feet.

$P$  = Working pressure in lb per square inch.

**Registered Horse Power** This note shows that the horse power given is the nominal horse power as recorded in the Official Register of the vessel.

**Water Ballast.** See explanations and illustrations on page xxxi of key.

### Steamers, column 14; Sailing Vessels, column 15.

**Moulded Depth.** The moulded depth of an Iron or Steel vessel is the perpendicular depth taken from the top of the upper deck beam at side, at the middle of the length of the vessel, to the top of the keel and the bottom of the frame at the middle line. In the cases of spar and awning deck vessels, however, the depth is measured from the top of the main deck beams. In Wooden and Composite vessels the moulded depth is the perpendicular depth from the top of the upper deck beam at the side of the vessel amidships to the lower edge of the rabbet of the keel.

In Wooden and Composite vessels where the lower part of the midship transverse section is of a hollow character (as in cases where thick garboard strakes are fitted) the moulded depth is measured from the point where the line of the flat of the bottom cuts the keel.

### Steamers, column 15; Sailing Vessels, column 16.

For explanations of symbols used to denote the Registers in which a vessel is classed (if she is not classed in Lloyd's Register Book), see alphabetical key, page xxviii.

**Board of Trade Passenger Certificate.** The note "till 6,03" indicates that the certificate expires at the date specified, June 1903.

### Steamers, column 16 Sailing Vessels, column 17.

**Mean Drafts.** The figures in the columns represent the mean drafts corresponding to an immersion of 65, 70, 75, and 80 per cent. respectively, as assigned by the late Underwriters' Registry, but these drafts do not indicate approved load lines.

## DOUBLE BOTTOMS AND WATER BALLAST TANKS.

ILLUSTRATIONS OF NOTATIONS in the 11th, 12th, 13th, and 14th Columns OF THE REGISTER BOOK.

WB = DB100'130t : denoting Double Bottom 100 feet long ; capacity, 130 tons.

WB = DBa100'f130'310t : denoting Double Bottom, aft 100 feet, forward 130 feet long ; total capacity 310 tons.

WB = DBa72' &amp; E &amp; B28'260t : denoting Double Bottom aft 72 feet long, and under Engines and Boilers 28 feet long ; total capacity, 260 tons.

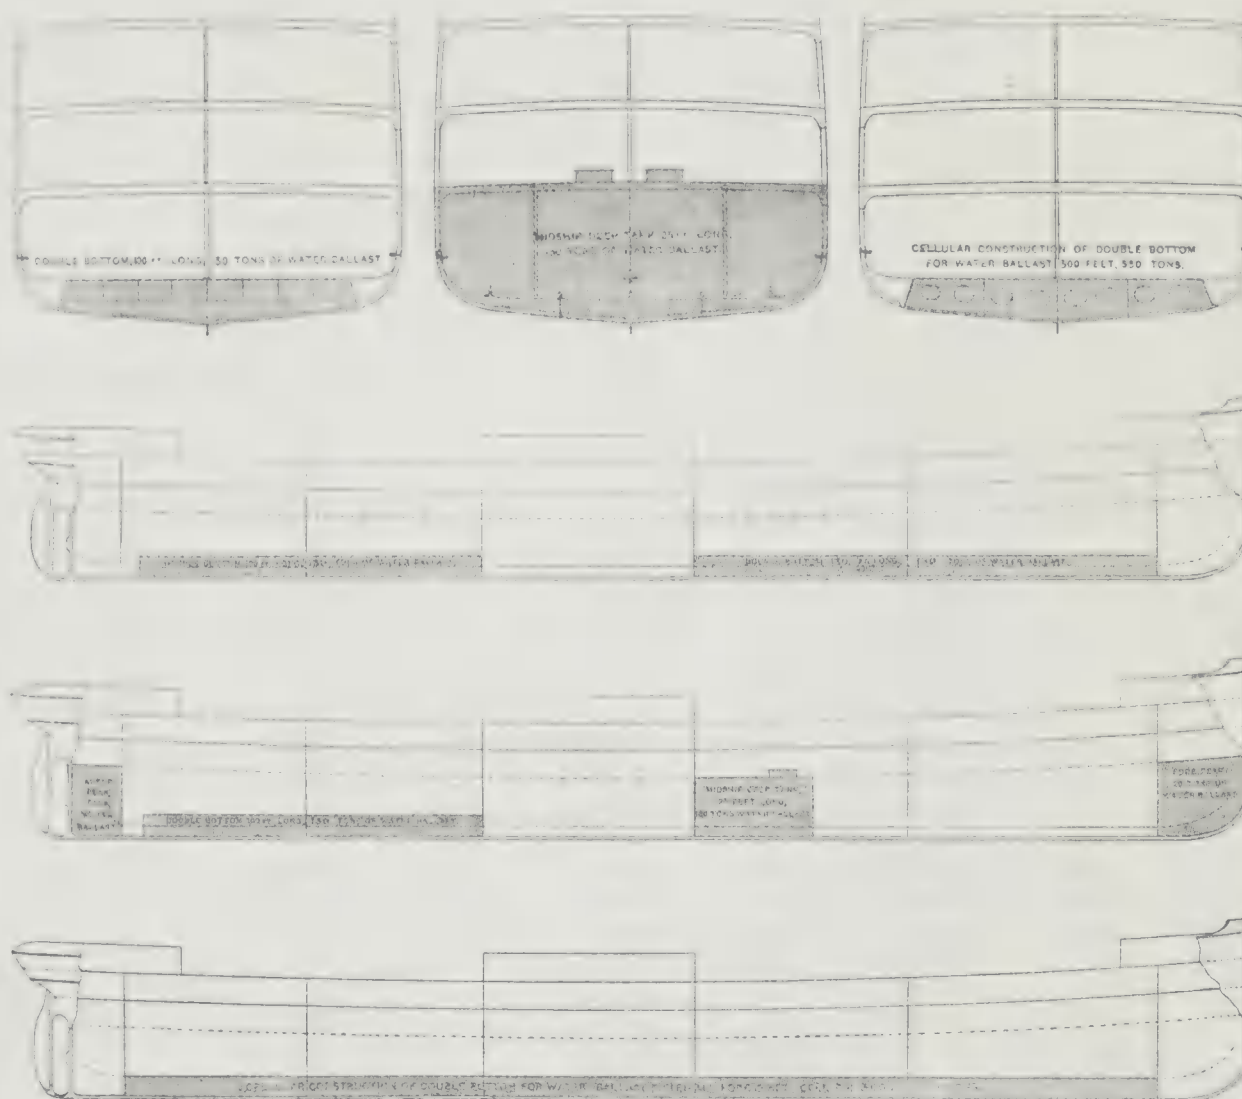

WB = Cell DB300'550t : denoting cellular construction of Double Bottom 300 feet long ; capacity, 550 tons.

WB = FPT20t : denoting Fore Peak Tank ; capacity, 20 tons.

WB = APT8t : denoting After Peak Tank ; capacity 8 tons.

WB = MT25'180t : denoting Midship deep Tank, 25 feet long ; capacity, 180 tons.

WB = DTa26'165t f30'198t : denoting Deep Tank aft 26 feet long, capacity, 165 tons ; and forward 30 feet long capacity 198 tons. See Diagrams.

N.B.—When part of the record of Water Ballast is expunged in red ink, thus :—WB = DBa45'f42' & ~~DBa100'f130'310t~~, &c., it signifies that the Vessel is fitted with tanks to the extent named, but at the date of the last survey the expunged portion was not being used for the purpose of Water Ballast, and the pipes, &c., thereto have been disconnected.

TABLE EXPLICATIVE CONCERNANT LE REGISTRE.

1902-03.

# EXPLICATIONS DES ANNOTATIONS DU "LLOYD'S REGISTER BOOK"

(Toutes les abréviations du "Lloyd's Register Book" — trouvent expliquées dans la Table Explicative, voir page xi.)

## Navires à Vapeur, colonnes 2 et 3; Navires à Voiles, colonnes 3 et 4.

- Capitaine.** Les chiffres à la suite du nom du capitaine, ainsi, *Smith 86-97*, indiquent (1<sup>re</sup>) l'année où il est entré comme capitaine au service de l'armateur, (2<sup>o</sup>) l'année où il a pris le commandement du navire.
- Ponts.** Voir les dessins des différents types de navires à la suite de la page xl de la Table Explicative. Les explications des termes tels que *shade dk.*, etc., sont fournies dans la Table Explicative, voir page xxxvi.
- 3 dk. rule.** Cette annotation indique que le navire a été construit d'après les règlements pour les navires à trois ponts. (Section 41, navires en fer et en acier.)
- Visites Périodiques.** L'explication de l'enregistrement des visites spéciales périodiques se trouve dans la Table Explicative, voir page xxxvi. L'enregistrement indique seulement la condition du navire à l'époque de la visite.
- Ports de Visite.** Les abréviations telles que (Lon., Syd., &c.), employées pour indiquer les ports où les navires ont été inspectés, sont expliquées à la page xl.
- Grément, etc.** Les abréviations employées pour spécifier le grément des navires sont expliquées dans la Table Explicative, voir page xxxvi.
- †** Ce signe à la suite du mot "*salied*" indique que les barrots du navire n'ont pas été salés.

## Navires à Vapeur, colonne 4; Navires à Voiles, colonne 5.

- Tonnage.** Le tonnage qui figure sur le "Lloyd's Register Book" en caractères comme ci-contre, est à part quelques rares exceptions, le tonnage officiel mesuré d'après les lois du pays auquel le navire appartient.
- Pour quelques navires étrangers, le tonnage qui figure a été mesuré d'après la méthode Anglaise, et est reconnu par la loi Anglaise. Dans ce cas le fait est mentionné par l'emploi de caractères italiques, comme ci-contre.

## Navires à Vapeur, colonnes 5, 6 & 7; Navires à Voiles, colonnes 6, 7 & 8.

### Marques de Classification du Lloyd's Register.

- 100A1 95A1** { Cotes des navires en fer ou en acier, construits conformément aux règlements de la Société depuis 1869. Les nombres 100, 90, &c., n'indiquent pas une période d'années, mais ne servent que de termes de comparaison.
- 90A1 85A1** {
- 80A1 75A1** {
- A1** ..... Cette cote non précédée d'un nombre, s'applique aux navires en fer ou en acier, construits à la satisfaction du Comité pour des usages ou des voyages spéciaux.
- \*A1** ..... Cote des navires en fer construits avec des tôles plus épaisses que celles réclamées pour la cote **A1**.
- A1 A1 A1** Cotes des navires en fer construits conformément aux règlements de la Société en vigueur de 1864 à 1871.
- A1** ..... Première cote des navires en bois ou composites dont l'armement est bon et suffisant. Les chiffres qui précèdent la cote, colonne 5 (navires à vapeur), colonne 6 (navires à voiles), indiquent le nombre d'années pour lesquelles le navire a été coté, ainsi :—11A1, Cont 6A1, Rest 6A1. (Voir "Cont" et "Rest" dans la Table Explicative, page xxxvi.) Les chiffres dans la colonne 7 (navires à vapeur), colonne 8 (navires à voiles), indiquent les périodes expirées pour lesquelles les navires avaient été cotés. A la première ligne ces chiffres indiquent la période originelle, aux lignes suivantes les périodes de continuation.

- A1** ..... Cote des navires pour lesquels les périodes assignées originellement, soit par Continuation ou par Restauration, sont expirées, ou cote des navires qui n'ont jamais eu de cote originelle mais qui sont jugés aptes à transporter des marchandises sèches et périssables. Le nombre d'années pour lesquelles la cote a été assignée figure sous la cote dans la colonne 5 (navires à vapeur), colonne 6 (navires à voiles), ainsi :—SSPly.00-6yrs.
- EA1** ..... Cote des navires aptes à transporter des marchandises sèches et périssables pour de courtes traversées, le nombre d'années pour lesquelles la cote EA a été assignée figure sous la cote dans la colonne 6 (navires à vapeur), ainsi :—SSPly.00-4yrs.
- 1** ..... Le chiffre 1 imprimé comme ci-contre et faisant partie de la cote, indique que le navire a un armement suffisant conformément au Tableau 22 (voir règle de la Société).
- ..... Ce signe à la suite d'une cote, à la place occupée par le chiffre 1, indique que l'armement du navire ne répond pas aux exigences des règlements de la Société, soit comme qualité, soit comme quantité.
- +** ..... Ce signe indique que le navire a été construit sous surveillance spéciale.
- +** ..... Ce signe indique que les machines ou les chaudières de la cote, indiquent que le navire a un armement suffisant conformément au Tableau 22 (voir règle de la Société).
- ..... Une ligne noire avec date au-dessous, indique que le navire a été retiré du "Lloyd's Register Book" à la demande de l'armateur, le navire ne pouvant conserver sa cote par suite de défauts signalés.
- ..... Une ligne rouge avec date au-dessous, indique que le navire a été retiré du "Lloyd's Register Book" à la demande de l'armateur, le navire ne pouvant conserver sa cote par suite de défauts signalés.
- ...** ..... Ce signe dans la colonne 7 (navires à vapeur), colonne 8 (navires à voiles), indique que la cote du navire a été retirée du "Lloyd's Register Book" à la demande de l'armateur.
- IC0A1** ..... Quand un navire coté est mentionné comme perdu, détruit ou ayant tout autre accident, &c., la cote est rayée comme ci-contre.

- with freeboard** ..... Cette mention sous la cote indique que le navire est construit avec une condition de la cote du navire.
- "For tug purposes,"** ..... Cette mention sous la cote indique les voyages spéciaux auxquels le navire est affecté et pour lesquels il a été classé par la Société.
- "Trawler," &c.** ..... Voir les dessins des différents types de navires à la suite de la page xl de la Table Explicative. Les explications des termes tels que *shade deck*, *awning deck*, &c., sont données dans la Table Explicative, voir page xxxvi.

### Marques de Classification de l'ex Underwriters' Registry

(Révisé le Lloyd's Register en 1885.)

- A1\*** **A1\*** ..... Cotes des navires en fer ou en acier construits conformément aux règlements de l'Underwriters' Registry et avec des fers de plus extra.
- A1\*** **A1\*** ..... Cotes des navires en fer, en acier ou composites construits conformément aux règlements de l'Underwriters' Registry.
- A1** **A1** ..... Les navires cotés en rouge ont été construits sous surveillance des Inspecteurs de l'Underwriters' Registry.
- A** **A** ..... Les chiffres 1 et 2 à la suite des marques de classification indiquent la cote de l'armement.

**Date de dernière Visite.** Les chiffres sous une cote indiquent la date de dernière visite. La date de visite certifie seulement la condition du navire à ce moment.

**Ports de Visites.** Les abréviations employées pour indiquer les ports de visites sont expliquées à la page xl.

Les 6<sup>me</sup>, 7<sup>me</sup>, et 8<sup>me</sup> colonnes (navires à voiles) ou les 5<sup>me</sup>, 6<sup>me</sup>, et 7<sup>me</sup> colonnes (navires à vapeur) laissées en blanc, indiquent que le navire n'a jamais été coté dans le "Lloyd's Register Book."

La 6<sup>me</sup> colonne (navires à voiles) ou la 5<sup>me</sup> colonne (navires à vapeur) laissée en blanc, sauf en ce qui concerne l'époque de la dernière visite enregistrée, indique que la cote est expirée ou bien qu'elle a été rayée soit pour manque de visite, soit pour non paiement des honoraires dus dans ce cas.

### Navires à Vapeur, colonne 8; Navires à Voiles, colonne 9.

**Date de Construction.** Pour les navires en fer et en acier cotés par le Lloyd's Register, la date de la dernière visite d'inspection pour l'entrée en cote est considérée comme étant la date de construction, à condition que la susdite visite soit passée dans les 6 mois qui suivent la date du lancement; mais si l'inspection pour l'entrée en cote n'est pas terminée durant la susdite période, la date de construction est calculée six mois après celle du lancement. Pour les navires en fer et en acier cotés et lancés antérieurement au 19 Mai 1887, ainsi que pour tous les navires cotés en bois et composites, la date du lancement est considérée comme étant celle de la construction. Pour les navires non cotés par le Lloyd's Register, il n'est pas possible dans tous les cas de spécifier si la date de construction est celle du lancement ou celle de l'achèvement des travaux.

Des annotations telles que 18 $\frac{3}{4}$  figurent pour quelques navires non cotés. Les chiffres supérieurs indiquent alors la date originelle de la construction, les chiffres inférieurs la date à laquelle le navire a été rapporté comme reconstruit. Dans ce cas la Société ne peut spécifier l'importance de la reconstruction.

### Navires à Vapeur, colonne 10; Navires à Voiles, colonne 12.

**Armateurs.** Pour les navires appartenant au Royaume Uni, le nom qui figure sur le "Lloyd's Register Book" est celui de l'armateur-gérant ou celui de la Société dont l'armateur-gérant fait partie. Lorsqu'il n'y a pas d'armateur-gérant, le nom qui figure est celui du plus gros actionnaire et le nom du gérant figure aussi si on le demande. Pour les navires coloniaux et étrangers, l'on a essayé de suivre le même usage que pour les navires du Royaume Uni, mais de sérieuses difficultés empêchent de certifier qu'une personne mentionnée comme étant armateur-gérant est aussi en réalité armateur légal. Dans certains cas par conséquent, la personne dont le nom figure peut n'être que gérant ce qui est absolument distinct d'armateur-gérant.

### Navires à Vapeur, colonne 11; Navires à Voiles, colonne 13.

**Creux.** Quand deux creux sont mentionnés, ainsi  $16\cdot9$ <sub>24\cdot2</sub> les chiffres supérieurs indiquent le creux au pont principal et les chiffres inférieurs le creux au pont supérieur. Cet usage s'applique surtout aux navires spar ou awning deck.

**Constructions sur les Ponts.** Voir les dessins des différents types de navires à la suite de la page xl.

**Water Ballast.** Voir explications et dessins à la page xxxix de la Table Explicative.

### Navires à Vapeur, colonne 12; Navires à Voiles, colonne 14.

**Water Ballast.** Voir explications et dessins à la page xxxix de la Table Explicative.

### Navires à Vapeur, colonne 13.

Toutes les abréviations employées se rapportant aux Machines, Chaudières, Foyers, &c., sont décrites dans la Table Explicative, voir page xxxvi.

La force en chevaux nominaux est calculée d'après les formules suivantes:—

1°. Si les pressions et les surfaces de chauffe sont connues:—

$$NHP = \frac{P + 340}{1000} \cdot \left( \frac{D^2 \sqrt{s}}{100} + \frac{H}{15} \right) \text{ pressions au-dessous de 160 livres.}$$

$$= \frac{P + 590}{1500} \cdot \left( \frac{D^2 \sqrt{s}}{100} + \frac{H}{15} \right) \text{ pressions de 160 livres et au-dessus.}$$

Pour les chaudières à tirage forcé on devra substituer dans les formules ci-dessus,  $\frac{H}{12}$  à  $\frac{H}{15}$ .

2°. Si les pressions et les surfaces de chauffe ne sont pas connues:—

$$NHP = \frac{D^2 \sqrt{s}}{100} \text{ Machines à Triple et Quadruple expansion.}$$

$$= \frac{D^2 \sqrt{s}}{120} \text{ Machines Compound.}$$

$$= \frac{D^2 \sqrt{s}}{130} \text{ Machines Simples.}$$

Dans les formules ci-dessus D = diamètre en pouces du Cylindre B.P.

s = Course du piston en pouces.

H = Surface de chauffe en pieds carrés.

P = Pression de travail en livres par pouce carré.

**Force Officielle en Chevaux (RIP)** Cette annotation indique la force en chevaux nominaux d'après le Registre Officiel du navire.

**Water Ballast.** Voir explications et dessins à la page xxxix de la Table Explicative.

### Navires à Vapeur, colonne 14; Navires à Voiles, colonne 15.

**Creux sur quille.** Le creux sur quille pour les navires en fer et en acier, est la longueur de la perpendiculaire abaissée depuis la face supérieure des barrots du pont supérieur sur le coté et au milieu de la longueur du navire, jusqu'à hauteur de la rencontre de la face inférieure de la membrure avec le dessus de la quille sur la ligne médiane; cependant pour les navires spar ou awning deck, le creux sur quille n'est calculé qu'à partir de la face supérieure des barrots du pont principal. Pour les navires en bois et composites, le creux sur quille est la longueur de la perpendiculaire abaissée depuis la face supérieure des barrots du pont supérieur jusqu'à hauteur de l'arête inférieure de la rablure de quille.

Pour les navires en bois et composites dont les parties inférieures sont frégatées (lorsqu'un navire est pourvu par exemple de galbords épais) le creux sur quille n'est alors calculé que jusqu'à hauteur de l'intersection de la ligne prolongée des fonds avec la quille.

### Navires à Vapeur, colonne 15; Navires à Voiles, colonne 16.

Pour l'explication des marques employées pour indiquer les différents Registres auxquels un navire est coté (s'il n'est pas coté au Lloyd's Register), voir Table Explicative page xxxvi.

**Certificat à passagers, délivré par le "Board of Trade."** Cette annotation "till 6,03" indique que le certificat expire à la date mentionnée, Juin 1903.

### Navires à Vapeur, colonne 16; Navires à Voiles, colonne 17.

**Tirants d'eau moyens.** Les chiffres qui figurent dans ces colonnes représentent les tirants d'eau moyens correspondant aux immersions de 65, 70, 75 et 80 pour cent, tels qu'ils ont été assignés par l'ex-Underwriters' Registry, mais ces tirants d'eau n'indiquent pas les lignes de charge approuvées.

Bien que le Comité prenne toutes les mesures possibles, pour obtenir des renseignements exacts sur les navires qui figurent dans le "Lloyd's Register Book," il est à noter que dans le cas où les navires ne sont pas cotés par la Société, elle ne peut garantir la complète exactitude de tous les détails donnés relativement aux dates du doublage au tonnage, aux dimensions, aux ponts, à la classification, etc.

\* \* Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving Notice of Periodical Surveys required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

\*. \* Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving Notice of Periodical Surveys required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

\* \* \* Additional Ships are inserted in the Supplement at the end of the Register.

**N.B.**—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving Notice of Periodical Surveys required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

\*. \* Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, the Society hereby intimated that the duty of giving Notice of Periodical Surveys required by the Rules, or when repairs are necessary in consequence of damage or other causes, rests with the Owners, Masters, or Agents.

\*. \* Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving Notice of Periodical Surveys required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

\* \* Additional Ships are inserted in the Supplement at the end of the Register.

**N.B.**—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving Notice of Periodical Surveys required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

\* \* Additional Ships are inserted in the Supplement at the end of the Register.

**N.B.**—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving Notice of Periodical Surveys required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

\* \* Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving Notice of Periodical Surveys required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

\*. \* Additional Ships are inserted in the Supplement at the end of the Register.

**N.B.**—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships are required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, hereby intimated that the duty of giving Notice of Periodical Surveys required by the Rules, or when repairs are necessary in consequence of damage, or other causes, rests with the Owners, Masters, or Agents.

\* \* Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, we hereby intimated that the duty of giving Notice of Periodical Surveys required by the Rules, or when repairs are necessary in consequence of damage or other causes, rests with the Owners, Masters, or Agents.

\* \* Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving Notice of Periodical Surveys required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

\* \* \* Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, the Society hereby intimated that the duty of giving Notice of Periodical Surveys required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

\* \* Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving Notice of Periodical Surveys required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

\* \* Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving Notice of Periodical Surveys required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

\* \* Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is intimated that the duty of giving Notice of Periodical Surveys required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

\* \* Additional Ships inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, hereby intimated that the duty of giving Notice of Periodical Surveys required by the Rules, or when repairs are necessary in consequence of damage, or other causes, rests with the Owners, Masters, or Agents.

\* \* Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their character from want of Survey, it is hereby intimated that the duty of giving Notice of Periodical Surveys required by the Rules, when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

\* \* Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving Notice of Periodical Surveys required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

\* \* Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors annually (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery made at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out to the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is intimated that the duty of giving Notice of Periodical Surveys required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

LIST  
OF  
SHIP OWNERS AND MANAGERS.

---

LISTE  
DES  
ARMATEURS ET DES DIRECTEURS-GÉRANTS.

NOTE.—This List consists chiefly of the Names of Managing Owners. It therefore does not include the names of some large Owners of Property, or form a true indication of the extent to which others are interested in Shipping.

---

NOTE.—Cette liste mentionne principalement les noms des Directeurs-Gérants. Elle ne comprend donc pas les noms de certains importants et n'indique pas non plus quelle part d'intérêt certaines autres personnes peuvent avoir dans l'affaire.

## The Characters used for Classification are:—

100A1 95A1 } Vessels built of Iron or Steel accord-  
90A1 85A1 } ing to the Rules in force since 1869.  
80A1 75A1 }

A1 Iron or Steel vessels built for a special purpose.

\*A1 Iron vessels built with thicker plating than required for A1

A1 A1 A1 Iron Vessels built according to Rules in force between 1864 & 1871.

A1 A1 AE1 Wood or Composite Vessels.

The figure 1 affixed to a character signifies that the vessel is well and sufficiently equipped; a line after the character (thus, A—) that the equipment is deficient from that required by the Rules.

The words "with freeboard" under the character signify that the freeboard assigned is a condition of the vessel's class.

### Classification of the late Underwriters' Registry.

A1\* A1\* Iron or Steel Vessels built in excess of Rules of Underwriters' Registry, and of extra quality of Iron.

A1\* A1\* A1 A1 A Characters of Iron, Steel, or Composite Vessels built according to the Rules of Underwriters' Registry.

Vessels classed in Red were built under inspection of Surveyors to Underwriters' Registry.

Classification Cols. when left blank indicate Vessels never classed by the Society.

Col. 8 (Sailing Vessels), Col. 7 (Steamers) three dots ... indicate that the vessel had a Class at one time, but it has been withdrawn at Owner's request.

In the same Column Lv signifies the classification of the Underwriters' Registry, and the letters a, b, c, &c., indicate the letters and equipment numbers in Table No. 22 (Rules).

A black line with date under it, in Classification Col. (thus, 3,01), indicates that vessel's character was expunged from Register Book at date specified because, from reported defects, the vessel was not entitled to retain her classification; a red line with date (thus, 3,01), indicates withdrawal of class because of non-compliance with Society's Rules.

A date in Classification Column, without character, indicates that the class has expired, or been withdrawn from absence of Survey, or non-payment of fees.

When a posting of loss, casualty, &c., is made against a classed vessel, the character is expunged thus:—

~~100A1~~

✠ in the Classification Column signifies that the vessel was built under Special Survey.

LMC —Boilers and Machinery certified by the Engineer Surveyors to Lloyd's Register.

B&MS —Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer Surveyors to Lloyd's Register.

DBS —Donkey Boiler Surveyed and reported to be satisfactory by the Engineer Surveyors to Lloyd's Register.  
✠ Special Survey of Machinery or Boilers during construction.

RMC —Refrigerating Machinery Certificate denoting that the Refrigerating machinery, insulation, and spare gear are fitted in accordance with the Rules, and were found in good condition at the time mentioned.

✠-RMC —The ✠ signifies the Special Survey of the Refrigerating appliances during construction, by the Surveyors to Lloyd's Register.

A&CP.—Anchors and Chains Proved at a Machine recognised by Lloyd's Register.

Lloyd's A&CP.—Anchors and Chains proved at a Public Machine under the superintendence of Lloyd's Register.

SS & ss.—Special Survey. Rest.—Restored.

Cont.—Continued. HT.—Half-Time Survey

## Key to Abbreviations.

Asp .....Asphalted.  
B 30' .....Bridge Deck 30 feet long.  
BH .....Bulkheads.  
BK 9" .....Bar Keel, 9 inches in depth.  
C .....Coppered.  
CB .....Copper Bolts instead of Treenails, per Section 46 (Rules for Wood Vessels).  
cf, CF, and CF—Copper fastened.  
Cell DB .....Cellular Double Bottom.  
Cem .....Cemented.  
DB .....Double Bottom.  
2 Dks (Iron—Uws) 2 Iron Decks, the upper one being sheathed with wood.  
2 or 3 Dks ...Two or three Decks laid.  
drp .....Damage repairs.  
DT .....Deep Tank.  
Elec.light.....Lighted by Electricity.  
F 30t .....Forecastle 30 tons.  
F&YM .....Felt & Yellow Metalled.  
FK .....Flat Keel.  
GIB .....Galvanized Iron Bolts.  
H .....Deck Houses.  
IB .....Iron Bolts.  
Irp .....Large repairs.  
Mat .....Materials.  
ND .....New Deck.  
NDS .....New Deck Sheathing.  
NKI .....New Keel.  
NKIsn .....New Keelson.  
NTsds .....New Top-sides.  
NW .....New Wales.  
P 30t .....Poop 30 tons.  
PBH .....Partial Bulkheads.  
Q 30' .....Raised quarter deck or break 30 feet long.  
retrid .....Retreenailed.  
RFD 30' .....Raised fore deck 30 feet long.  
srp .....Some repairs.  
2 or 3trB .....Two or three tiers of Beams with or without Decks on them.  
WB .....Water Ballast.  
WS .....Wales Sheathed.  
Z .....Zinc.

### Machinery.

C. ...Compound.	FD .....Forced Draught or Induced Draught
T. ...Triple expansion.	
Q. ...Quadruple expansion	6 cf .....6 Corrugated Furnaces.
H. ...Horizontal.	
O. ...Oscillating.	6 pf .....6 Plain Furnaces.
D. ...Diagonal.	6 rf .....6 Ribbed Furnaces.
L. ...Lever.	
2 SB 2 Single ended Boilers.	GS 109 109 square feet of Grate Surface.
2 DB 2 Double ended Boilers.	HS 3006 3006 square feet of Heating Surface.

The figures after Cy. represent diameter of Cylinders and length of stroke in inches.

100 lb .....Working Pressure of Main Boiler in lb per square inch.

65 lb .....Working Pressure of Donkey Boiler in lb per square inch. The letter P or s prefixed to lb indicates the pressure of port or starboard boiler respectively.

Mchy.Aft. ....Machinery fitted Aft.

Ref.Mchy. ....Fitted with Refrigerating Machinery see List at end of Register.

NHP .....Nominal Horse Power by formulæ given on page xxvii of Key.

RHP .....Nominal Horse Power by Official Register in the case of British Vessels.

NE&B .....New Engines and Boilers.

NDB .....New Donkey Boiler.

In Col. 13 letters a to t in parenthesis indicate the Material of Boilers (see Key, page xxviii.)

In Col. 16 (Sailing Vessels), Col. 15 (Steamers) the Capital letters V, A, H, &c., represent the Register Societies in which Vessels are classed, if not classed in Lloyd's Register. "BT till 4,02" indicates that a Board of Trade Passenger Certificate has been granted, expiring in April 1902.

For complete explanation of Records, &c., see Key at commencement of Register, page xxv.
